

To whom it may concern:

Landmark Senior Living Communities engaged Limitless Technology after last year's NIC conference. Their customer service was impeccable. We were, unfortunately, a difficult client, as we were in the midst of transforming our accounting, HR and IT all at the same time. Keeping all the balls up in the air at the same time was difficult, and trying to save money on our cell phone bills seemed like low priority work. Still, Limitless Technology was persistent without being annoying, and ended up saving us just under 49% on our cell phone bills. Great work!

Best,
Matt
