To Whom it May Concern:

Limitless Technology recently completed a phone/communications audit for Jewett.

From the start of the process to the conclusion, Todd and Cindy have been extremely professional, thorough and knowledgeable.

They were always on top of all of the changes and the follow through was extremely efficient. They saved us approximate 15% of our total communications expense and approximately 30% of the items that could be affected.

I have been quite impressed with their entire process and would not hesitate to recommend their services. We plan to continue utilizing their services on an ongoing basis.

Sincerely,

Martha M. Harriman
